## Bluewater Ready Monohull For Sail

### All Australian Import Taxes Paid

If you're looking for a stoutly built, easy to manage, blue water yacht then you can stop right here. Bring your clothes, some food and your favorite beverage and cast off the lines for exotic ports at home or abroad.

*Dazzler* is a 36' Union Polaris cutter rigged, full keel double ender, based on a Robert Perry design and made by the Union Yacht Company in 1987. Well regarded for serious offshore sailing, her strong and stable hull combined with the traditional design and classic warm teak interior and teak and holly sole make her a dream come true. She's been meticulously maintained and expertly upgraded by her captain and owner of 20+ years.

In 2009 a custom built radar arch, hard top dodger and a rear seat fit for a King or Queen were added to make her super comfortable and provide shelter from Mother Nature. Her teak decks were removed and replaced with Kiwigrip in 2013 and still look amazing. All lines except for the tack point for reefing have been rerouted to the cockpit to make it super easy for the single hander or short staffed crew.

She has all the comforts of home and has the power to back it up. Sporting 300 watts of LiFe Po4 Batteries, a D400 wind generator, 360 watts of solar and a Honda EU2200 generator to provide more than enough power to keep you going in even the most remote of places.

This traditional yacht has been lovingly cared for by her owner for over twenty years. She comes complete with a detailed maintenance log as well as PDF manuals for most every item installed on her. You really need to see her to believe what a great boat she is but be prepared, you will not want to leave once you step on board.

NOTE:

Current Survey from February 2023 is available on request.

Owners are living aboard and maintaining her so there are a few items that will not convey such as the Mac Mini and other personal computer equipment, dishes and linens.
